

ACCURPRESS DELIVERS THE COMPLETE PACKAGE

NORTH AMERICA'S #1 PRESS BRAKE

North America's #1 selling press brake is also America's best value. Accurpress combines great selection with great pricing for superb value. We offer a versatile range of models, from 25 to 2,000 tons, with options tailored to your bending operations.

We've been producing brakes and shears for over 30 years. Many thousands are now in operation across North America and around the world. Each of these machines, including the one you'll buy, is made with 100% of our best efforts. Our business depends on it and so does yours.

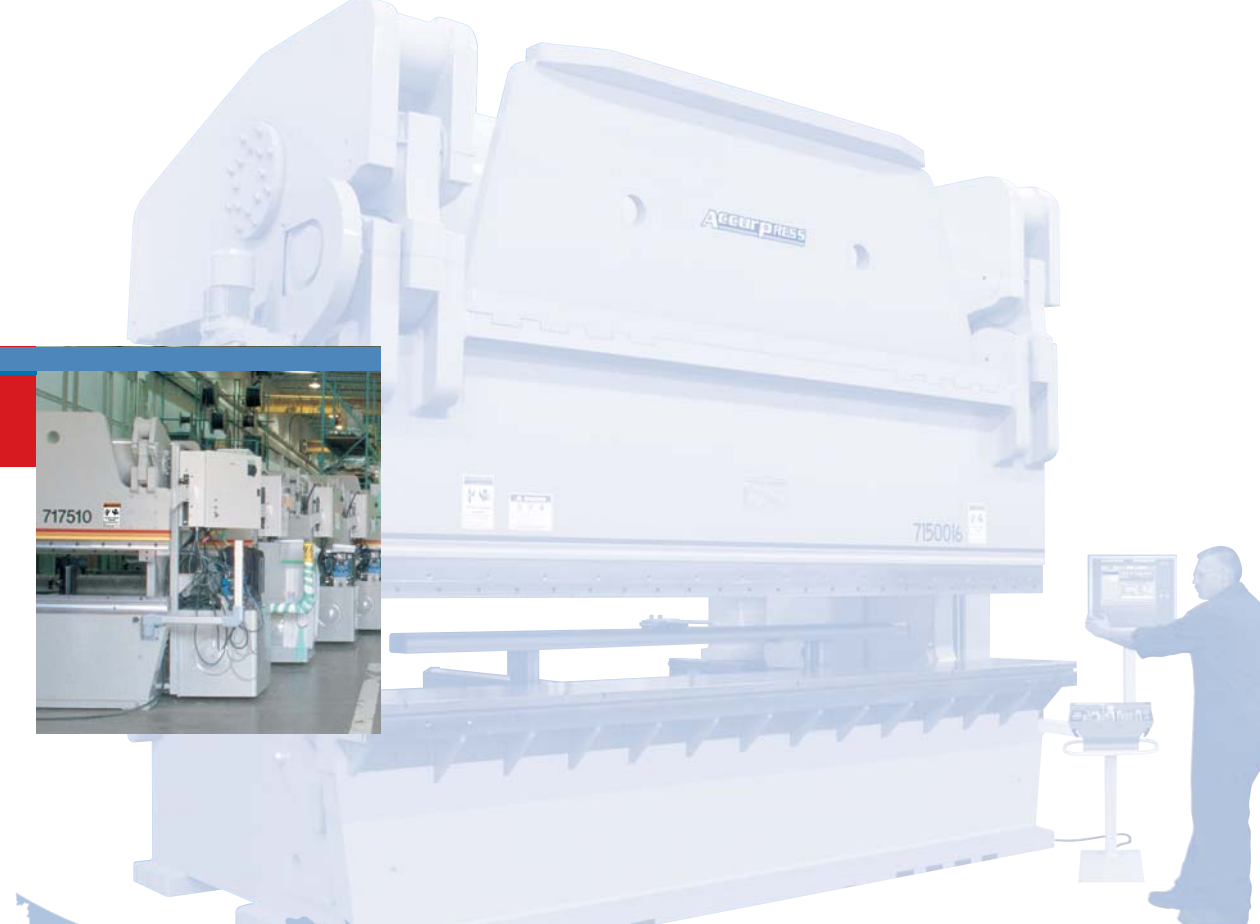

DEDICATION TO RESEARCH & DEVELOPMENT

The Accurpress team of highly skilled engineers are dedicated to research and development. This commitment keeps Accurpress on the leading edge of press brake technology and provides you with yearly press brake enhancements, improved features, new options, and greater machine functionality.

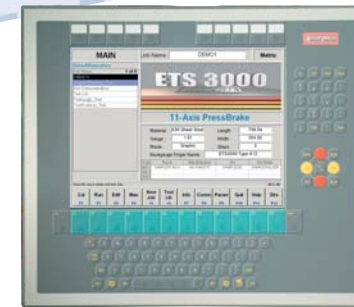

CUTTING EDGE MANUFACTURING

Our entire line of press brakes deliver day-after-day reliability because they are engineered and built to last. We emphasize parts quality and labor expertise. We machine, fabricate and finish virtually every part in-house. This manufacturing approach assures you of the highest standards in quality control.

NORTH AMERICAN DEALERSHIP NETWORK

Accurpress equipment is sold through leading machine tool dealers in North America, a partnership which provides you with thorough training, first-class customer support and prompt satisfaction for service and problem-solving.

SUPERIOR GAUGING SYSTEMS

You can rely on Accurpress Gauging Systems for speed and accuracy. Accurpress builds the finest gauges in North America and offers a variety of gauging solutions to meet your needs. From the ETS100 to the ETS3000, you can be sure the productivity enhancements realized by CNC gauging is well within your budget — and within the Accurpress line.

PRECISION TOOLING SYSTEMS

Accurpress offers a complete line of Quality Certified Premium press brake tooling, from quality, value-priced standard tooling to precision ground tooling—all manufactured with only the highest quality die materials. Accurpress also delivers complete tooling systems including custom tooling solutions, tool and die accessories, die crowning, and Wila Hydraulic Clamping Systems.

SUCCEED WITH ACCURPRESS INNOVATION

The primary goal at Accurpress is to provide you with high quality, cost-effective solutions for your forming and shearing needs. We are innovative in our manufacturing processes and strive for perfection in every detail to ensure you receive the best possible value.

Creativity and integrity are the cornerstone of our design, engineering, and manufacturing. We combine these qualities with experience, craftsmanship, and only the finest quality materials to deliver long-life and the utmost accuracy from all our products.

You can rely on Accurpress' innovative products to facilitate your success.
