

# Why Choose Accurpress Tooling?

## Premium Tooling

### 1 A Full Line

Accurpress produces a full line of value-priced press brake tooling available in lengths up to 24', for coining and air bending applications.

The line includes:

- 85° and 90° forming punches & dies
- Four-way dies
- Gooseneck punches
- 30° forming punches & dies
- Offset die
- Flattening & hemming die
- Rib Dies
- Channel-lock adjustable die
- Conventional and four-way die holders
- Custom designs for your special applications

All tooling is carefully checked and measured

### 2 Important Options

We also offer optional flame-hardened tooling, as well as special sizes and extended punch heights, plus European-style tangs, ram adaptors, and segmented tooling. All options are quoted on request.

### 3 Certified Materials

We select only the highest quality pre-hardened brake die material available to manufacture Accurpress Quality Certified Tooling...using 4150 steel with a hardness of 270-300 Brinell, 28-32 HRC .

### 4 Quality Standards

We produce quality tooling. Each tool is carefully machined with fine finishes, straightened and measured with precision gauges to ensure tolerance that exceed industry standards. Prior to shipment, all tools are coated with a durable rust-proofing compound before packing into crates.

### 5 Fast Delivery

We make it our goal to provide delivery times that are among the fastest in the industry... thanks to our comprehensive, in-depth stocking program.

## Precision Tooling

### 1 A Full Line

We also offer a complete line of North American Style Tooling available in a variety of lengths.

The line includes:

- 90° and 88° Standard forming punches & dies
- Acute angle forming punches and dies
- Gooseneck punches
- Quick-change dies
- Four-way dies
- Pillar dies
- Narrow and Sash punches and dies
- Radius, Flattening & Hemming punches and dies
- Urethane dies
- Punch and die holders, with clamps to match
- Custom designs for your special applications

### 2 Certified Materials

We select only the highest quality die materials available to manufacture Accurpress Quality Certified Precision Tooling.

### 3 Highest Quality

Stringent quality assurance and control ensures the highest quality product, consistently delivered.

### 4 Long Life

With a mean working edge hardness of HRC 55, long life and trouble free service are assured.

### 5 Outstanding Value

Accurpress certified precision ground tooling delivers the highest quality at reasonable cost. Like all Accurpress products, this represents outstanding value for the user.

### 6 Service

We offer full technical and applications support to back up our product line. Whatever your forming problem, consult us and we will provide you with the cost effective solution.
